

First Class Interior and Exterior Protection

Featuring DuPont™ Products

Extra protection. Extra peace of mind.

Spills. Stains. Splatters. They could happen to the interior and even the exterior of your vehicle. That's why Mercedes-Benz Financial Services now offers a new level of protection – First Class Interior and Exterior Protection - using DuPont™ products. A protective coating is applied to the fabric, leather, and paint, safeguarding your vehicle against stains and marks, while helping to maintain your vehicle's overall appearance.

Interior Protection

Fabric Protector – As vehicles are being used more often, upholstery fabric and carpets are exposed to more spills, splatters and everyday mishaps. DuPont™ Fabric Protector will help provide protection against staining, high temperatures and discoloration caused by all types of spills including food, coffee, soda, and other beverages.

Leather Protector – While leather is known for its durability, even these surfaces are not immune to wear and tear. DuPont™ Leather Protector creates a barrier to help protect against high temperatures, stains, premature aging, cracking, and fading.

Exterior Protection

Paint Protector – Vehicles paint finishes are challenged every day to resist oxidation, fading and loss of gloss. To help maintain your vehicle's appearance and shine, DuPont™ Paint Protector shields your paint finish in high temperatures and provides additional protection against items such as insect damage, acid rain, and road salt.

More coverage. More protection.

In addition to fabric, leather, and paint protection, you'll get the following benefits:

- Five year guarantee on new vehicles
- Three year guarantee on pre-owned vehicles
- No need for re-application
- Transferable to a subsequent owner
